Anna Lukasiewicz, Claudia Baldwin (Eds.)

Natural Hazards and Disaster Justice

Challenges for Australia and Its Neighbours

- Examines the concept of Disaster Justice as framing disasters as a social and governance issue
- Considers all stages of the disaster management cycle – preparation, response and recovery
- Offers a comprehensive synthesis of the intersection of disaster and justice written from a variety of disciplinary perspectives, grounded in real world case studies

This book explores policy, legal, and practice implications regarding the emerging field of disaster justice, using case studies of floods, bushfires, heatwaves, and earthquakes in Australia and Southern and South-east Asia. It reveals geographic locational and social disadvantage and structural inequities that lead to increased risk and vulnerability to disaster, and which impact ability to recover post-disaster. Written by multidisciplinary disaster researchers, the book addresses all stages of the disaster management cycle, demonstrating or recommending just approaches to preparation, response and recovery. It notably reveals how procedural, distributional and interactional aspects of justice enhance resilience, and offers a cutting edge analysis of disaster justice for managers, policy makers, researchers in justice, climate change or emergency management.
